Adaco Services Expands to Bermuda, a Hotel School and Large Hotel Management Company

May 06, 2008 - Adaco Services, LLC, has expanded its reach to Bermuda as well as a hotel school and a management company for 37 hotels across the United States.

Adaco has completed software installations at the following hotels:

- Fairmont Southampton, Southampton, Bermuda (Adaco Eclipse SPE, scanners)
- Rosen Hotels, Orlando, Fla. (Retail Lite)
- CSM Lodging Services (a management company for 37 hotels in United States), Minneapolis, Minn. (Adaco Eclipse MPE Enterprise and Adaco Eclipse MPE)
- Cooking & Hospitality Institute of Chicago, Chicago, Ill. (Emporium)

Adaco Eclipse and its Web-based version Starlight, give buyers centralized control over the entire procurement process and simplify the management of single property (SPE Edition) and multiproperty (MPE Edition) hotel operations. Both versions improve efficiency and reduce labor costs by eliminating manual and paper-based processes. The platform includes: purchasing, receiving, storeroom requisition, inventory control, operational control and analysis, recipe and beverage revenue enhancement, accounting and corporate management. Properties can operate the browser-based Starlight or outsource the operation to Adaco. For retail stores, Adaco Emporium provides complete procurement, inventory control and retail analysis to ensure maximum advantage from retail traffic.

At hotels in more than 500 properties in 54 countries, Adaco software is considered one of the hospitality market's best automated solutions for full service hotels, ensuring that the right item will be delivered to the right place at the right time at the right price.
